

ECOC 2019 Reveal

Suncall will be at **ECOC Booth #355** showcasing new and exciting products for the Fall. Our R&D and Engineers have developed some new innovative products that will be releasing soon. Stop by the booth to get the first glimpse of the new designs in the Internal Shutter adapter series (MPO, LC, SC), the new LC Uniboot Connector for 5.0mm OD cable for wireless application, and a few other product reveals. It's been a productive year for our talented R&D Department and Engineers. Suncall is committed to providing the highest customer service along with superior quality fiber optic solutions. *We look forward to seeing you in Dublin!*

2019 New Products

MPO Internal Shutter Adapters for Front-of-Rack Usage

The newly redesigned MPO Internal Shutter (IS) Adapter Series was engineered to utilize internal shutters, while offering two size options: simplex and duplex...
